REUTER'S MESSAGES. THE GRECO-TURKISH WAR.

LONDON. April 26th. The Turks have occupied Larissa after six days' constant fighting. The decisive battle was fought on Friday near Lymanos and resulted in the retrest of the Greeks to Pharsale, The retrest, which was a perfect rout, was closely pursued by the Tarkish cavalry which did great execution. Reuter's and several other special

correspondents bad very narrow escapes, The Greeks in Epirus have met with a severe check at Pigedie, where they lost 500 in killed

and wounded. ACCOUCHEMENT OF THE DUCHESS OF YORK

He was checking some accounts when the boy contradicted him and then defendant gave him a blow with his fist, which he afterwards repented and told the, boy that he was very serry that he had not been able to control his temper. Defendant also denled that another boy who was brought as a witness was present and said he was serry he could not bring anybedy in support of his allegation, Mr. Wodehouse inflicted a fine of \$5 and a further \$2, to be paid as compensation to the complainant, Some China "boys" and coolles are most exasperating, and with knowledge that they can "make it, bot " for their masters in the Police Court often deliberately invite assault by the uso of grossly offensive words and actions. AT the weekly parade of the police at the Central

Station this afternoon Captain May, on behalf of the officers and men presented to Dr. Ayres, Colonial Surgeon, a farewell address. Besides the police there was a large number of ladies present, including Mrs. May. In making the presentation the Captain Superintendent spoke in warm terms of the Doctor's many good qualities and said that in parting with him all light tax levied to secure payment of the cost of hands were losing a staunch friend. The address was couched in warmly eulogistic terms | memories. | It was commenced by this Chamber and was artistically written on vellum and bound in embossed leather. Dr. Ayres returned thanks | panies and firms, who have specially pelitioned in very feeling terms, making special reference to I against the proposal to convert the voluntary his pleasant associations with "the force " during his 23 years of office. CHAMBER OF COMMERCE.

ANNUAL MEETING.

The annual meeting of the Hongkong Chamber of Commerce was held at the rooms, City Hell at 3 p.m. to-day. There was a large attendance of members and, in the absence of of the Chal. nan (Mr. A. McConnachie) the Vice-Chairman (Mr. Herbert Smith) presided.

The Chaliman said—Gentlemen, the report

has been in your hands some days, and, with

read. The vallous questions which have during

the past year engaged the attention of the Chamber are a city: fully dealt with therein and I need only slive to those of special interest, or to those that are still exciting discussion. The announcement by Reuter in May last that Li Hung Chang would, while on his mission to different Europ an Courts, endeavour to get their sanction to so increase in the Chinese tailfl on imports, at once excited the attention of the Committee. We took measures to secure something like concruicd action by the representative commercial be iler, and, as the event proved. the step was timely, as it led to expressions of opinion on the subject, in advance of the Chinese envoy's visit to England, where in due course it is reported that he broached the matter to Lord Sallabury. The Premier, in reply, in effect said that he would wish to consult the Chambers of Commerce in China before taking any decisive action, and we can only hope that, in any case, negetiations will be deferred until time has been glaun for properly testing the value of Chinese official pledges in relation to the Transit Pass Trade in the two Kwang provinces. by the Likin Offices which, if rigidly enforced. may render such a trade possible, where for more than thirty years it has, in defiance of the stipulations of the Tientsin Treaty, been impracticable, owing to the obstructive tactics of the provincial officials. I may add that, as a matter of fact, we have since been assured. on the highest authority, that the Chinese Government have never once broached the question to any of the Fereign Ministers at Peking, and that no instructions have come out to the latter from their Governments in connection therewith. Lt Hung Chang, no doubt hoping to obtain kudes at Peking if successful in the attempt to scare a revision of the tariff, played this off his own bat, with, however, very indifferent success. It may be worth while remembering, too, that the Japanese Treaty signed at Shimonoscki in 1805 has eight years yet to run. and that instrument virtually assures the present the most-favour: I nation clause. As, you are well aware, the trade of this port again suffered considerably last year owing to quarantine restrictions. The Chamber lost no opportunity of protesting scalust the unnecessary prolongation of these precautions, but, in some directions. with very qualified success. More particularly is this the care in the Philippines, where on the oth ultimo qua putino was reimposed, against versels from Hongkong and ports of China, absolutely without resson. Protests from this Chamber through the Spanish Consul seem to have been upiformly disregarded at Manila, and I fear it is hope us to look for seasonable treatment in this i. p.cl in the pelebbouring Spanish colony. Neve beloss we must not relax our efforts to chiain more considerate treatment. The inadequa: accommodation at the Post Office and the as we then believed, consequent late delivery al the malls induced the Chamber to make representations to the Government on the subject last summer. Since then increased accommedation has been obtained by the annexation to the Post Office of a portion of the ground floor of the adjoining Court-house, but I regret to say that I cannot record any improvement in the administration of this Department. Delays in the delivery of mai's are ind: I more frequent than ever, to the great inconvenience of the entire commercial "community. Concerning the action of the Telegraph Companies in raising their rates Europe, America and Shanghal immediately following the ratification of the Telegraph Convention on the grat July last; there is little further to be said. This Chamber made a prompt and energetic protest against that action and slibough, thanks to the influence of the Foreign Office, there has been a concession in rates on certain of the Eastern Extension Co.'s lines, and a reduction in rates from home to China, we may be sure that the monopoly created by the Convention cannot fall to be prejudical to the chances of our obtaining cheaper means of communication, a matter o great importance in these days of keen competition and narrow margins of profit. I congratulate the member for the Chamber upon the position he alone of the unofficials took up in regard to the Government's action concerning the Light Dues question. The subject has been very fully discussed even unto bliterness, so I will not further refer to it here. A few changes have occurred in the Committee during the year, the principal being the election of Mr. A McConnachie to the chair, on the resignation of Mr. Bell-Irving at the first meeting of the present Committee. Mr. McConnachie proved a most painstaking and energetic Chairman, and I know that he regretted that his arangements would not allow bim to remain to preside at this meeting. It is certainly an honour I never expected, for I had no idea until very lately that the Chairman would not be present for this important occasion. Mr. Gray, who is one of the oldest members of the Committee, consented on his return to rejoin it, thus filling the gap caused by the resignation of Mr. Dedwell. You will be called upon to-day to elect a new Committee. The list of new members is a quatifying one, not only because they serve to strengthen and popularise the Chamber, but also because the subscriptions now place as in a greatly improved financial position. You will see by the accounts that the revenue for the past year exceeded the expenditure, instead of as in some former years show ing a balance on the debit side, a much more satisfactory state of affairs. I am sure you will allow a good deal of credit is due to our Secretary and to two members of Committee (Messis Whitehead and Michaels of for their special effor a to bring about this result. I will now, gantlemen, unless some member present wishes first to offer some remarks, move that the report and the Secretary's statement of accounts, as presented, be adopted. Hon. T. H. Whitehead said-I heartily apreclate your reference to my re-election to the Legislative Council as the Chamber's representative and my endeavours on behalf of trade and commerce. While it is my privilege to occupy a seat in the Council you may rest assured that to the ulmost of my ability and without fear or favour I will strive to protect and promote the interests which you have entrusted to my care. At the Chamber's annual meeting in May last year when the special Gap Rock Light Dues were being continued, though the purpose for which they were originally levied had been satisfied, it occurred to me in the course of the remarks I then made to direct the attention of the Chamber to a despatch of a previous Governor in connection with the freedom of the port. Sir John Bowring said :- " Belleving that the satisfactory develorment of our prosperity is mainly due to the emancipation of all shipping and trade from fiscal vexitions and exactions, I trust no Custom House machinery will over be introduced, either for the collection of tariff or harbour dues, or for any purpose which may check the free ingress and egress of all shipping to and from the port, nor the free transfer of commodities from hand to hand," and these words are now as applicable as when they were i welten. You are aware your Committee com-

ing and in acknowledging the letter sixteen Interests are to be congratulated upon this days later Government replied that the matter was receiving attention. Nothing further would sprear to have been done until the rah of the following November and then instead of bringing the question of taxing shipping for the purposes of general revenue before the Council openly the Government and avoured to get the matter discussed and settled by the unofficial members privately. I ventured to protest sgainst this " hale and corner " mode of procedure, as in my opinion it is irregular and unconstitutional to refer public questions to the people's representstives to be discursed with clased doors and settled at private mretings. In certain quarters my protest was regarded as over-vigorous, and in the Legislative Council I listened to His Excellency the Governor more in rorrow than in anger when he referred to my letter as having been written in my usual uncompromising style. Circumstances necessitated prompt action and not only the members of this Chamber but the whole Colony is to be warmly congratulated in that the Chamber has succeeded in frustrating the illsdvised and unwise attempt of the Colonial Government to permanently tax for the purposes of general revecue the shipping frequenting thoso waters. The election of a number of new members was confirmed by the meeting. The election of a new committee resulted as follows: -- Méssrs. R. M. Gray (Chaleman), H. Smith (Vice-Chairman), J. J. Beil-Irving, N. J. Ede. T. Jackson, St. C. Michaelsen, T. Whitehead, N. A. Slebs, and G. B. Dodwell.

This terminated the proceedings. THE REPORT.

The following is the report of the Committee of the Hongkong General Chamber of Commerce for the year ending 31st December, 1896, as presented to the members at the annual meeting this alternoon !-

During the past year fewer subjects have engaged the allection of the Chamber, but your Committee are gind to note the final settlement of several questions and the satisfactory advancement of others.

duties leviáble in Japan on Yormosan

PRODUCE TRANSHIPPED AT HONGKONG. Early last year the Colonial Government requested an opinion from this Chamber on the subject of the duties leviable in Japan on British owned goods from Formers which may be tran-

shipped at Hongkong. A case was cited showing that, on satisfactory proof of the origin and destination of the cargo being given, the Customs charges were refunded by the Japanese Governe ment, though it was considered doubtful whether such treatment could be generally claimed as a light. The Government desired to know whether the effect of this privilege, if claimed and conceded, would be beneficial or otherwise to the trade of the Colony. A reply was sent affirming the desirability of chialoing a definite recognition of the privilege, but nothing further has since transpired in reference to the subject, THE WUCHOW-FU OBSTRUCTION CASE.

The case in which the officials at Wuchow-fd intervened to prevent the free disposal of goods taken under transit pass up to Wuchow by Mr. John Andrew was satisfactorily settled early in the year, and a sum of money in satisfaction of Mr. Andrew's claim for loss incurred subsequently paid over to the British Consul at

DUTIES LEVIED ON FOREIGN GOODS IN SOUTH CHINA.

Consequent on the case above alleded to and correspondence on the subject of the exactions levied on foreign goods in the interior of the Two Kwang, strong representations were made to the Central Government, the effect of which has been the lisue recently of proclamations by the Likin Offices in Kwangiung and Kwangsi calling attention to the Treaty provisions and setting forth that all foreign produce imported under half-duty certificate to no matter what points in the interior shall, on production and examination of its covering pass in transit, be exempt from all additional charges. It is hoped that the provisions of these proclamations will be strictly enforced.

QUAJANTINE RESTRICTIONS.

Clean bills of health were issued here on the 7th August, the bubonic plague having died out, and quarantine restrictions were quickly abolished in some ports, but it was not until October that free pratique was granted at Manila on vessels arriving from Hongkong and China ports. The outbreak of small-pox in Japan has led to vessels from the ports of Toklo, Yokohama, and Naganaki being declared infected at Singapore, Manila, and elsewhere. The question of the sanitary supervision of the port is fully deserving of the most careful consideration.

DELAYS IN POSTAL DELIVIRIES AND INADIQUATE POSTAL ACCOMMODATION.

Actings on a suggestion made by Messrs. Melchers & Co., the Committee in June last addressed the Government on the great inconventence suffered by the mercantile community through the frequent delays in the delivery of the malls, and, having regard to the impossibility of effectively carrying on the service in the present inadequate building, urged the Government to proceed with the construction of a new Post Office. A reply was received stating that the question of the provision of a new Post Office, together with other Government hulldings, . was under the consideration of the Secretary of State, but meantime the Government were considering the feasibility of arranging for temporary additional accommedation for the Postal Department. This has since been effected by the conversion of a portion of the group floor of the Supreme Court House into offices to the Registration and Parcels Departments, much to the convenience of the public.

THE DEATH OF SIR JOHN PENDER.

BRUSSELS INTERNATIONAL EXHIBITION, 1897. The London Chamber of Commerce having accepted the invitation to assist in the organization of a British rection in the above Exhibition, wrote in July last asking this Chamber to co-operate; but your Committee, in view of the paucity of local products and manufactures. replied that while the Chamber would with pleasure make public the proposal, it could not pledge itself to any active co-operation in the

LOCAL TELEGRAPH TARIFFS.

The desirability of securing a reduction in the local tariffs for telegrams has not been lost sight of by y ur Committee, and in June last a letter was addressed to the Joint Telegraph Companies reminding them of an intimation given some time previously of a contemplated concession in raics. To this a reply was given appropring reductions commencing from the 1st July in rates to the Straits Settlements, Labran, Micao, and Netherlands Indies. This was followed in December by a further reduction in the tariff to the above countries and a substantial concession in rates to India, Burmah, Ceylon, Indo-China, Conles of the same to the International Telegraph Australia, and other countries, and a reduction has also been made in the rate for Press telegrams.

FOREIGN TRADE. One great object for which this Chamber has patiently and persistently laboured has at length in part been attained. The great importance of opening up the inland waterways of South China was recognised by this Chamber very early in its history, and, in pursuance of this design, in 1870 it despatched the then Secretary on a mission of exploration as far as Nanning-in on the West Kiver. He returned with much valuable information, subsequently embodied in a report, the publication of which greatly stimulated public interest, and since that time the subject has been brought forward at intervals, and agitated. On his arrival in China last year as British Minister, Sir Claude MacDonald fayoured your Committee with an interview, and discussed this question among others. It is gratilying to now learn, therefore, that an agreement was signed at Peking on the 4th February whereby the Chinese Government undertake to open two ports on the West River as Treaty ports, and four other places as calling stations, whereat passengers and cargo may be landed, such agreement to come into force on the 4th June next, the date fixed for its ratification. Most cordial and hearty thanks are due to Sir Claude MacDonald for the important service he has rendered.

PROPOSED OFFICIAL TELEGRAPH CODE VOCABULARY.

The proposal to enforce the use of an Official Telegraph Code Vocabulary upon the mercantile public, and against which your Committee agitated strenuously last year, has been shelvel for the present. It will be recollected that, in addition to other action, a joint letter signed by all the Chambers in the Far East was addressed to the International Telegraph dureau, Berne, protesting against the code, and was laid before the Telegraph Conference held at Budi-Pesth in the summer, when it was decided that the Vocabulary is to be enlarged and not to come into effect until after a date to be fixed by the B next Conference in 1901. Meantime the assistance of the Chamber was asked to induce owners and compilers of private codes to forward Office at Berne.

> SUPREME COURT. IN APPELLATE JURISDICTION.

(Before their Lordships the Chief Justice Sir 7. W. Carrington, and Mr. T. Sercombe Smith Puisse Judge.) April 28th.

IN RE SUNDER SINGH AND MANNA SINGH. Mr. J. J. Francis. Q.C. (instructed by Mr. Hastings), appeared for appellants, who appealed against a committal to three months' hard labour made by the Acting Puisne Judge on April 12th for contempt of court in committing !

wilful and corrupt perjury. The Chief Justice, in delivering judgment, said the committal was made under Section 23 of the Supreme Court Ordinance of 1873. The points had been raised on behalf of appellants, the first being that there was not sufficient evidence to justify the order of committal or, in other words that the quantum of proof of perjury had not heen supplied. After qualing Russell on Crime, his Lordship explained the law relating to 200.02 perjury, stating that the unsupported evidence 315 50 of one witness was not sufficient on which to convict. In this case the defendant positively 58.00 denies the statements of plaintiff and his witnesses and the evidence of Lam Kee corroborated that of defendant. After referring to the case gene-. 3.266 48 sally, his Lordship said that the first point falled and that there was evidence to justify the com-

> Mr. Francis bere interposed, saying that there were three oaths against three oaths and there was no superlasity of evidence on one side or. the other and there was no preponderance of testimony to support the charge of perjusy. The Chief Justice said he had not lost sight o

the number of witnesses when dealing with the quantity of proof necessary. If the evidence of one wilness only was corroborated or supported in some way a charge could be established, and when a charge was clearly proved by two wit nesses it did not matter if a dozen were called for the defence. On the second point his Lordship said it was claimed that the order was bad as no charge had been stated for them and that \$17.508 03 it was necessary that they should have an opportunity of rebuttal. The sections of the Ordinance relating to the case were quoted showing that two powers were with the court in the matter. The first was the power direct a protecution for perjury and applied to avidence taken on affidavit, in chambers, or in open court. It was not contended by counsel that there was any need to call on a person to make a defence as to evidence on affi avit in chambers. Regarding evidence In open court there was an alternative power as to a wifness committing perjury. A committal for a term not exceeding three months could be 244 82 for a term not exceeding three months could be made or a fine inflicted not exceeding \$100. This power was absolute at the close of proceedings and its exercise was equivalent to saying that the court had come to a definite conclusion that perjury had been committed. It was contended in this case that a charge should have been formulated and the person charged allowed an opportunity of meeting it. It was clearly a power given the court for a sudden, sharp and swift dealing with a person charged with perjury in open court. If a charge were formulated and stated and time allowed for rebuttal that power would not be absolutely final. The case would have to be put off and re-opened, witnesses sgain of Pollard quoted by counse's was different in its circumstances. He agreed with the learned counsel that, as a matter of equity, it would be desirable in cases of this kind where a committal was about to be made to have the person before the court, and state to him that he was apparently guilty of perjury and ask him whether he desired to say snything to show why he should not be committed. He thought Genilemen,-We beg to lay before you the it a matter of discretion and equity and would After careful consideration of the case he After deducting rent of battery, interest and thought the doctrine in Pollard's case

The Acting Pulsue Judge read his judge ment, in which he said that after hearing evidence, he found that perjury had been committed. that there was periney and, having made up its The accounts have been audited by Mr. W. tolad, it would have been a waste of time to have called upon them to explain or apologise Apr. 27 TencerSingapore...B. & S. for perfury, which would k ave made the proceedtog a farce. In the case of Pollers the contempt - 27 Haimen Hobek.

uced could have been explained or apologised for. He quoted several authorities in support of this and said his reason for committing the appellants was because he felt that in dealing with Atlatics it was more within the policy of the ensetment that he should commit them at once. He believed strongly in inflicting summary punishment on Asiatics, as it had an effect and was more valuable than other forms. He imposed the heaviest publishment in his power, as he had come to a very clear opinion that grees perjuty had been committed and that the whole care was got up with the rurpose of exterting money from the defendant. Polding the opinions he did as to the evidence, they had been confirmed on looking at the promissery note. He only regretted that he had not acted on the suggestion of the Chief Justice as to calling the appellants before him prior to committel, notwithstanding that he was perfectly within his rights in acting summerly and he was of opinion that the supeal should he dismissed,

Mr. Francis asked for a stay of execution for a month to enable appellants to consider their position and decide whether they should appeal to Her Majesty agalust the Court's decision. His Lordship assented on condition that the securities were increased from \$500 to \$700. The appellants were ordered into custody until the bonds were forthcoming.

The Court then adjourned stad die. NOTANDA. CALENDAR.

THE PUSSO-CHINESE BANK.

The Peking correspondent of the Shabghaf Daily News writes :- This Bank has secured from the Chinese Government a lease for thirty vests of the Korean Legation at a yearly rent of Tis. 2,000. Commediaus buildings are now being erec ed and the cli quarters repaired at a cost of Tis. 20,000. The new premises will be immediately opposite the Russian Legation and adjoining Imbeck's new store, with entrance in Ligation Street and Well Street. The business to be transacted will consist mainly of the receipt bi-annually of the instalments of the interest and principal of the Russo-French loan and the management of the Manchurlan gallway. Mr. T'a, formerly attache to the Chinese Legation, St. Petersburg, is appointed Assistant Director of the said railway with a seat in the Bank, THE NEW IMPERIAL BANK.

We have seen, and you have published, a translation of the prospectus of this Bank. It is now established, its Head Office being in Shanghai. It is passing through a fiery ordeal like its associate the Hankow Railway, and, like it, is likely to soffer in the process. Censors have been busy here during the winter launching their memorials against both. We may say that we drapair of China ever constructing a railway system on the prevent lines, and we fear the Bank scheme must be relegated to the same category. Already sharp criticisms have been extended to both and the author of both. A variety of corrections have been made in the scheme from the Throne and various charges have been preferred against the Bank. Shanghal is not likely to have the honour of locating the Head Office of the Imperial Bank, The Government would like to know into whose pockets the surplus profits are to go, and what advantage the Imperial Government is to enjoy. Before the Bank issues its note circulation, the Government will doubtless want to see its capital and not only see it but take charge of it .. in some of the Imperial Treasure Houses at Poking.-N.
